Overview

This discussion is largely student-led. You will upload two pages that are in progress for your site. They will link one to the other using consistent navigation. Describe what uses of the box model you've made.

Instructions

This discussion is largely student-led. You will upload two pages that are in progress for your site. They will link one to the other using consistent navigation.

1. Upload two pages from your site to a web host.
2. Test to make sure your links work.
3. Post your URL to the discussion for others to see by the initial post due date.
4. Discuss what parts of the box model you've used; where you've padded parts out and what you've done to modify the layout using the layout and box model.
5. By the discussion due date, post a reply to others. You can offer technical help, advice, detailed kudos, and gentle suggestions.

See the *Schedule* and *Course Rubrics* pages in the *Syllabus and Schedule* Module for due dates and grading information.
